COMPANY PROFILE

Kawas Engineering LLC is a part of Al Badi Investment & Holding Group. The Group was established in 1976 in the Sultanate of Oman under the leadership of Mr. Ali Abdullah Al Badi (Chairman) and Mr. Khamis Abdullah Ali Al Badi (Executive Director). The Group has enjoyed exceptional growth and success in Sultanate of Oman since 1976.

We are a specialized company dealing with vertical solutions & cooling solutions. Our outlook is to give best service to the customer.

شركة كاواس الهندسية هي عضو مجموعة البادي للإستثمار القابضة وهي الذراع الهندسي للمجموعة حيث تعتبر من الشركات الرائدة محلياً في مجال تصميم المصاعد والسلالم الكهربائية المتحركة وتوريدها وتركيبها وصيانتها بالإضافة الى خبرتها الواسعة في أنظمة وأعمال التكييف.

وعلاوة على ذلك فقد قامت شركة كاواس الهندسية بتقديم الحلول المناسبة لمختلف المشاريع السكنية والتجارية ونجحت في تسليم العديد من المشاريع المرتبطة بمجال المصاعد والتكييف.

Our Mission

Is to be the leader in the field by providing quality products & services that exceeds the expectations of our esteemed customers.

رسالتنا

تهدف شركة "كاواس الهندسية" الى تقديم كافة الحلول والخدمات المتعلقة في مجال المصاعد والتكييف بأعلى مستوى من الجودة على نحو مناسب ومتميز يتجاوز توقعات العملاء.

Our Vision

We believe in KAWAS to be the leader company in the local and international market of and have the biggest market share by understanding the customer's need & improving the delivery techniques of our products and services.

رؤيتنا

تطمح شركة كاواس الهندسية الى أن تكون الجهة الرائدة في السوق المحلية والعالمية في مجال تركيب وتوريد وصيانة المصاعد وأنظمة التكييف من خلال فهم احتياجات العملاء وتطوير أساليب تقديم المنتجات والخدمات.

Our Activities

Supply, installation, Testing, Commissioning & Maintaining all types of Building Elevators, Escalators & Air Conditioning.

We pride ourselves on offering the best brands of lifts for the most professional Elevator Solutions.

Fuji Elevators Co. Ltd. (Japan)

The most advanced & trusted elevator technologies. It is one of the most reliable companies & the best in elevator sector on time, every time, everywhere...

Metron Engineering Co. (Europe)

Metron was founded in 1995 and since 2000 is subsidiary of ALUMIL Group. Company's main field of expertise is the design and construction of complete elevator systems. Several years of experience in the sector, combined with extensive know-how have established Metron in 42 international markets as one of the fastest growing elevator companies.

Lifts Products

Traction Machine (with room & without room), Hydraulic Panoramic, Car & Fright Elevator, Escalators, Travelators & Dumbwaiters

MRA Elevators

Traction elevators with MR are one of the most well established solutions of the European market. They are characterized by high quality components and high levels of user friendliness.

MRL Elevators considered to be the future of the elevators sector worldwide as it does not require any extra space apart from the shaft.

Hydraulic Elevators are best suited in cases of low buildings, up to 6 stops. Also preferred for professional use in cases of lifting loads.

Home Elevators utilize the state-of-the-art ultra slim permanent gearless traction machine, which is perfect for installing in any type of residential buildings or home villas without the need for conventional machine rooms and with eco-friendly oil-free gearless traction machine.

Metallic Shaft in cases when there is no shaft to install an elevator, We are able to provide you an external metallic shaft, It is suitable both for indoor and outdoor installation. The whole metal structure can be painted in colours or provided with glass, so that it matches with your elevator and the surface of the building on which it is installed.

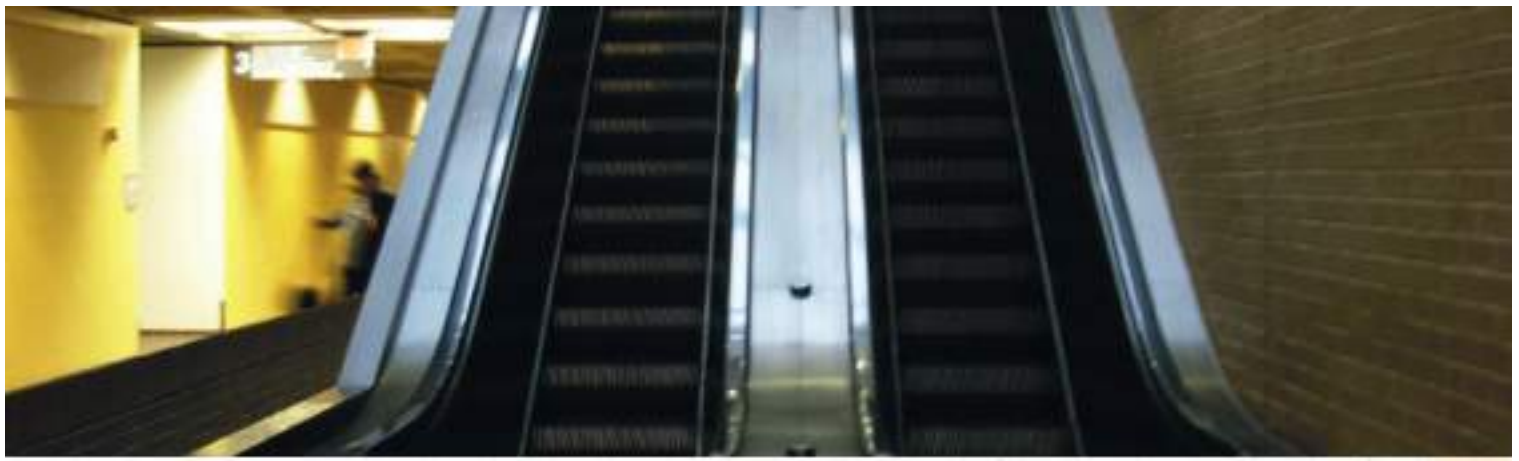

Panoramic Elevators comes in various types, in a closed, transparent shaft or positioned on the outside of the building. Designers and architects consider these as "Architectural Objects" that give a building character.

SOME OF ELEVATORS CABIN MODELS:

Elevators & Moving Walks (Travelator).

Slimline & Commercial Escalator

A complete series of Escalators and Moving walks. Our range can meet the requirements of the the most demanding project around the world both in a technical and in an aesthetic way.

Escalators and Moving walks are fully complied with the EN 115, securing the highest safety standards in the world. Minimum energy consumption due to inverter driven motors, noiseless and reliable operation, excellent traveling quality are only few features to mention.
